SUMMARY

I am currently a 4th-year student majoring in software engineering with a passion for development orientation in the field of mobile programming.
I want to be able to work in a creative and professional environment so that I can develop myself into a junior mobile developer in the near future and a senior mobile developer in the distant future.

SKILLS

Programing languages

- **Dart**
- C/C++
- Python
- C#
- NodeJS
- Java

Databases

SQL Server   My SQL

EDUCATION

Ho Chi Minh City University of Technology - HUTECH   **2019 - 2023**

GPA: **3.5/4.0**

Specialties: **Software Engineering**

PROJECTS

Online clothing store system (web and mobile)   **03/2022 - 06/2022**

Team size: 3

Tech stack: Flutter, NodeJS, PHP, MySQL

Responsibilities: Building, handling mobile interfaces and server side for the system

- Build mobile UI using Flutter
- Handling interface changes with Flutter
- Build API for the system using NodeJS
- Handling data interactively on the interface through the API

Github: https://github.com/NthienMinh/sellClothes

Movie ticket online app   05/2022 – 06/2022

Self Project

Tech stack: Flutter

Responsibility:

- Build mobile UI using Flutter based on pre-designed interfaces
- Handle interface changes with Flutter

Github: https://github.com/NthienMinh/movie_ticket_UI

MANY OTHER

Teaching assistant of C programming language at HUTECH University   10/2021 – 02/2022

JV-Farm (Game)   12/2021 – 02/2022

Team size: 3

A farm game built with using javaswing

Responsibilities: Game mechanics building, Game stats setting, Interface building, Map building, ...

DataBase: SQLite
